## About Rugby

Rangitoto College has a proud sporting history and boasts many athletes who have taken their heroics into the national and international spotlight. Over the years however our success on the rugby field has been mixed and in 2009 we acknowledged that in order to enhance our performance on and off the field we would require additional resource to develop and support our rugby playing fraternity.

With so many dedicated teachers, students and parents working within our rugby environment it was decided that a position of Rugby Administrator be created to add the necessary glue to our program in support of that group as well as pulling in other developmental resources to help grow our skills. We are a competitive bunch here at Rangitoto and we don't want to just participate....we want to compete at a higher

level in the North Harbour Secondary School competition across the grades and ultimately build a culture of success.

This positive initiative however comes at a cost and we need to raise funds to continue the improvement and development of rugby at Rangitoto College.

The Inaugural 2011 Golf Tournament 4 Rugby will be an annual fundraiser for the development of rugby at Rangitoto College. Now in order for it to be a success - we need your support!

Please read on to see the options available for you to assist us raising funds. However there are many other ways you can help too...so if you are keen help us push the boundaries please contact Amanda Bennett, 021 422 530.
